

# FLEXDRAIN<sup>®</sup> CSC2

Drainline heating cables for refrigeration

FLEXDRAIN<sup>®</sup> CSC2 heating cables are easy to install and high-performing

- Extremely flexible
- Maximum heat transfer
- Totally sealed
- Double insulated

REACH

*FLEXELEC, the specialist in the design and manufacture of flexible heating products dedicated to the frost protection of refrigeration systems.*

# FLEXDRAIN® CSC2

Drainline heating cables for refrigeration

FLEXDRAIN® CSC2 drainline heating cables are designed to be laid inside the defrost water flow pipes of refrigeration equipment installed in cold rooms. The range comprises of 40 standard items available from stock.

Our know-how and expertise of heating cable design enable us to **respond rapidly** to specific OEM applications, with over 250 active references.

## A complete range of certified products

Heating length (m)	CSC2	CSC2K	CSC2M
1	x	x	x
1.3	x	x	x
1.5	x	x	x
2	x	x	x
3	x	x	x
4	x	x	x
5	x	x	x
6	x	x	x
Voltage*	230 V	230 V	230 V
Wattage	40 or 50 W/m	40 or 50 W/m	40 W/m
Length of power cables	1 m	1 m	1 m
Dimension	5x7 mm	5x7 mm	D 4.8 mm
Thermostat	No	Yes - built-in	No

\* Other voltages on request

Insulation:  
Silicone elastomer

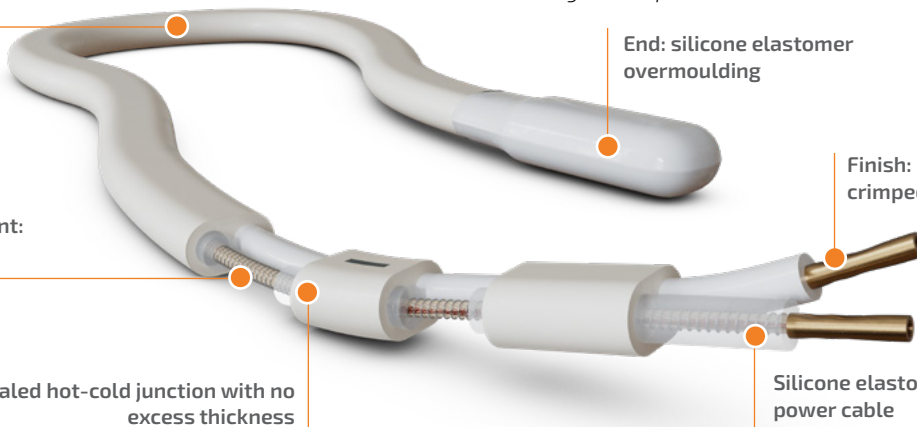

Heating element:  
resistive wire

Sealed hot-cold junction with no  
excess thickness

End: silicone elastomer  
overmoulding

Finish:  
crimped ferrule

Silicone elastomer  
power cable

A subsidiary of the OMERIN group with a dynamic **workforce of over 1,700**, FLEXELEC specializes in the design and manufacture of flexible heating cables and elements for temperature maintenance and frost protection of refrigeration systems.

**With over 40 years' experience**, FLEXELEC stands out for its innovation and development of products for a wide range of applications in the refrigeration industry.

**Our heating elements are critical to the smooth operation of equipment** installed in cold stores, refrigerated vehicles and supermarkets.
